

Somewhere beyond the noise of the world lies a quiet village hidden between mountains and endless fog.

Time moves slowly there, and every house carries a story no one outside has ever heard.

The people live simple lives, but behind their quiet routines are hidden struggles, dreams, regrets, and memories. Some carry heartbreak. Some carry hope. Some are trying to escape their past, while others are learning how to live with it.

As long as the village exists, the stories continue.

This is Project Valley.
